This is to certify that we have examined the books and other financial records of the school board of Stratham of which this is a true summary for the fiscal year ending June 30, 1949, and find them correctly cast and properly vouched.

NORRIS W. BEAN,

Auditor.

July 25, 1949.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Stratham, New Hampshire:

I take pleasure in submitting my second annual report as Superintendent of Schools.

The school year 1949-1950 opened with two changes in personnel. Mrs. Eleanor Henry of Kensington replaced Mrs. Leona Foster, who moved away from this area, as music instructor, and Miss Nancy Carnegie started her work as school nurse for Supervisory Union No. 16. She replaced Mrs. Eloise Sheehy who had rendered excellent service for several years, but who felt she should retire from her work as school nurse.

Miss Edna Crane has returned as teacher of grades 5 and 6 along with Mrs. Elizabeth Merrill, teacher of grades 3 and 4 and Mrs. Hilda Barker, teacher of grades 1 and 2. This staff gives Stratham competent teachers who are endeavoring to work for the best interests of the boys and girls in the various phases of their school life.

Some badly needed repairs were made during the summer to all of the school fences and to the steps at the Ridge School. These provide for greater safety for the children and add to the general appearance of the school grounds.

The school district voted at its school meeting in March, 1949, to appoint a committee to study the possibility of forming a cooperative elementary school district for the area. The school districts of Exeter, Newfields, and East Kingston voted to do the same. Kensington was invited to participate in the study unofficially because that town is faced with the same problems in elementary education as the other towns. The committee of the several towns were united into one large committee to carry on the

study. The results of the study have been publicized through the distribution of printed copies and the holding of public meetings.

The problem facing all of us is to decide how our children can have the best education possible within the means of each of the towns. There are two avenues of approach to the issue:

1.) Each town can face its own problems independently.

2.) The towns can combine their resources by forming a cooperative elementary school district and by building a centralized school for the children of all the towns. If a cooperative district is to be formed, the decision should be made soon before the individual towns invest money in their own independent districts.

As I see it, the people of Stratham have two alternatives. They can vote to build their own central school for Stratham or they can vote to join a cooperative school district for the area. The decision the citizens must make is of major importance and will determine the educational future of the boys and girls for years to come. It is my sincere hope that you, the citizens, will give serious thought to the pros and cons of each of the two possibilities and that you will make every effort to provide the best possible education for the boys and girls of the town.

I wish to congratulate the Parent-Teacher Association for purchasing a new 16 mm. moving picture projector for use in the schools. This provides equipment for the beginning of an audio-visual program of instruction which is a very desirable addition to the school life of the children.

I call your attention to the reports and table which follow. I trust that these will be of interest to you.

Again I wish to thank the citizens of Stratham, the

members of the School Board, and the teachers for their fine cooperation and support.

Respectfully submitted,

RAYMOND A. HOYT,

Superintendent,

Supervisory Union No. 16

Stratham, New Hampshire

REPORT OF THE SUPERVISOR OF MUSIC

To the Superintendent of Schools:

Upon assuming my duties as teacher of music in the schools of Stratham in September, 1949, work was immediately begun on the fundamentals of music, training in two-part music, and the learning of new songs.

The annual Christmas program was given on December 21st at which time specially prepared Christmas music was sung, including some two-part music.

I enjoy my work with the children and I am looking forward to the work on an operetta which will be given sometime before the end of the school year.

My aim is to have the children have a thorough knowledge of the fundamentals of music, the ability to read music and sing part music and to have them love and appreciate good music, all of which can mean so much in all our lives.

I wish to express my thanks to Mr. Hoyt, the members of the Stratham School Board and the teachers for their cooperation.

Respectfully submitted,

ELEANOR HENRY.

Kensington, N. H., January 14, 1950.

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

Following is the report of the school nurse from September 7, 1949 to January 1, 1950.

Bi-weekly visits have been made to the schools at which times the first aid kit was checked and fresh supplies added, children have been weighed and measured — a weight and growth chart is kept in the schools which is of great interest to the children and of value to the nurse; vision and hearing have been tested, teeth and tonsils have been checked, skin and hair examined frequently. If time permitted little health talks were given in the classroom. All defects found were reported to the parents. If the defect was not corrected in a reasonable length of time, home visits were made to determine the cause of delay.

This year the Maico Individual Audiometer, a recent gift of the Exeter Kiwanis Club to the schools of this Union, was used. This made it possible to test the hearing of the children in the first and second grades as well as the other children.

There is yet much that can be done in planning and carrying out a health program for school children. Ideas and theories have changed in this field, as in other fields, and it is hoped that as time and opportunity avail themselves these will be put into effect.

Following is a report of the physical examination:

Number of pupils examined				75
Defective Teeth	26	Receiving treatment		3
Defective tonsils	18	Defective vision		11
Defective hearing	6	Corrected		4

All children have been vaccinated.

At this time I would like to express my appreciation for the cooperation of our superintendent, teachers, school board, and P. T. A. Everyone has been most gracious in helping me get started with my work here.

Respectfully submitted,

NANCY CARNEGIE, R. N.,

School Nurse.

REPORT OF FOREST FIRE WARDEN

Forest Fires — Our Most Shameful Waste

Everyone apparently fears fire but too many are careless with it. This is particularly true of fire in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects far-reaching. Such fires destroy raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public — YOU!

The primary objective of all fire fighters is PREVENTION — fire stoppage. This is the goal toward which your local fire warden and his deputies are constantly working. It can be achieved **ONLY** if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.
